

Education

MPSTME, NMIMS University B. Tech in Computer Engineering CGPA: 3.16	2023 - 2027
RK Mishra Vidyamandir, Bahadarpur HSC: 77.67%	2021 - 2023
ST Mary English Medium High School, Amalner SSC: 81.66%	2011 - 2021

Projects

1) E-Commerce Management System

Overview: Developed a Java-based e-commerce application for managing users, products, shopping carts, and inventory.

Technologies: Java, Spring Boot, MySQL, OOP

Outcome:

- Built a complete e-commerce workflow covering user, product, cart, and inventory management.
- Delivered a structured and reliable application through modular development, testing, and debugging.

2) AI Resume Role Detection & Job Readiness Analyzer

Overview: Developed an AI-powered application to analyse resumes, identify relevant job roles, and evaluate candidate job readiness.

Technologies: Python, Scikit-learn, Pandas, NumPy, Streamlit

Outcome:

- Automated resume analysis and job-role identification to simplify the candidate evaluation process.
- Generated suitable job-role predictions and personalized job-readiness insights based on candidate profiles.

3) CareerLens — Job Market Analytics Platform

Overview: Developed a web-based job-market platform that collects, processes, and analyzes job data to help users explore opportunities, hiring trends, salary patterns, and in-demand skills.

Technologies: Python, SQL, Streamlit, Pandas, MySQL

Outcome:

- Converted job-market data into clear, actionable insights for career decision-making.
- Helped users explore hiring trends, salary patterns, skill demand and job opportunities through an interactive platform.

Certifications & Publications

• SQL Skill Certification – HackerRank

Validated SQL and database fundamentals through HackerRank's skill assessment.

• GenAI Powered Data Analytics – Tata Group (Forage)

Completed an AI-focused analytics simulation involving exploratory data analysis and generating insights for business decision-making.

• Fluxus – IIT Indore Hackathon

Advanced to the final round after clearing the knockout stage in a competitive innovation hackathon.

• Python Essentials 1 — Cisco Networking Academy

Built a strong foundation in Python programming, covering core programming concepts and structured problem solving using Python.

CORE SKILLS

Technical Skills: -

1. **Programming Languages:** Python, SQL, Java
2. **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Quality Assurance, Software Engineering.
3. **Database:** MySQL, SQL-Server
4. **Frameworks & Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn, Streamlit, Spring Boot
5. **Tools & Technologies:** Power BI, Microsoft Excel, VS Code, Figma, SQL Server Management Studio, Git and Git-Hub

Soft Skills: -

Problem Solving, Analytical Thinking, Communication, Collaboration, Learning Agility, Adaptability, Ownership & Accountability, Teamwork

Achievements and position of responsibility: -

- Head of Marketing Subgroup, Club Avinya – SVKM's NMIMS Shirpur.
- Shortlisted for the Final Round of Fluxus Hackathon – IIT Indore
- Volunteered at Mangal Graha Temple, supporting event and crowd management.
